FOR BEST EFFECTS PLANT TULIPS IN GROUPS OR CLUMPS

To obtain the greatest pleasure you've ever had from your Tulip planting, plant your bulbs in groups instead of single lines. Use only one variety in each group. Dig a hole large enough to accommodate five or ten bulbs in a group. Set the bulbs in it, spaced 4 to 5 inches apart, and replace the soil.

Rembrandt Tulips

Rightly named after the celebrated painter. Each flower in itself is a wonderful combination of colors. Every bloom is fantastically striped and feathered and beautifully flamed. There are many amazing color combinations and variations—flame-red on white ground, gold color on brown base, rose spotted on lilac base, etc. Height 26 in. **Superfine Mixture.**

Fantastic PARROT TULIPS

THEY'RE BEAUTIFUL!

BLUE PARROT 10 for 95c; 25 for \$2.10; 50 for \$3.90

MIXTURE OF OLD PARROT TULIPS

A brilliant mixture of the well-known Parrot Tulips of old. Many different colors but also the most different and whimsical shapes. Their stems are shorter and less strong than the stems of the new Parrot varieties, but they are very suitable for cut flowers and are ideal for planting in the rock garden.

------------	---------------	----------------

Exciting NEW Peacock Tulips

A new hybrid group with the peculiar characteristic of unfurling their blossoms full and wide, thereby revealing the magnificent color variations of the interiors in a manner similar to the peacock, which proudly displays its feathers. They display an amazing variety of different shades, and the foliage is always distinctly striped purple-brown, similar to the parent plant Greig. The flowers are long lasting, blooming continuously from the time of the early to the late-flowering Tulips. Heights vary from 8 to 18 in. Supply is still limited.

B. F. BARR & SON NURSERIES

You will find that many of the rules for landscaping are the same as those used for purchasing clothing or designing clothing—you want to achieve an effect best suited for your needs. In landscaping however, you work with living plants, trees, shrubbery, garden accessories, fences, arbors, etc., which are not easily tried on or moved around after they are planted. They must be placed right at the outset and a study of your needs are important before you start. We are prepared to serve you well, and the plants need not be expensive. A friendly welcome awaits you!
